SKILLS

Technical Skills: C++, C, Python, Java, JavaScript, HTML, CSS, SQL

Tools & Technologies: Microsoft Office Suite, Git, GitHub, Visual Studio Code, Power BI

Business & Analytical Skills: Data Analysis, Reporting, Process Improvement, Workflow Optimization, KPI Tracking

Web Development: Frontend Development, Responsive Web Design, REST APIs, UI/UX Design

WORK EXPERIENCE

La Moda Furniture

Chicago, Illinois

IT & Web Development Associate

July 2024 – Present

- Analyzed customer engagement trends and website traffic metrics to support business decisions and improve online sales.
- Collaborated with business operations to support technology-driven workflow improvements.
- Designed and launched a responsive e-commerce website, strengthening the company's digital presence and customer accessibility.
- Performed debugging and frontend optimization to improve usability and website performance.

PROJECTS

- **Economic Insights - Consumer Spending and Inflation Tracker (GitHub)** | *Python, Pandas, SQL, Jupyter, Scikit-learn*
 - Deployed a large-scale economic analytics and research platform focused on analyzing U.S. inflation trends and consumer spending behavior.
 - Built data preprocessing and ETL pipelines using pandas and NumPy to clean, normalize, and analyze economic datasets from sources such as CPI, FRED, Zillow, and Census data.
 - Conducted EDA and statistical modeling to identify inflation patterns and regional cost-of-living differences..
 - Designed SQL-based analytical queries and relational database structures to store, aggregate, and analyze large-scale economic datasets efficiently..
 - Implemented machine learning models for inflation forecasting, price trend prediction, and anomaly detection using Scikit-learn and time-series analysis techniques.
- **Dhikr Connect - Full-Stack Mobile Application (iOS App)** | *Swift, SwiftUI, CoreLocation, REST*
 - Designed scalable mobile application features focused on user engagement, accessibility, and performance optimization worldwide.
 - Developed real-time prayer scheduling systems supporting users across 200+ countries with high-performance API integrations.
 - Integrated CoreLocation and CoreMotion to power a real-time animated compass that accurately points toward the Kaaba in Mecca, enhancing the prayer experience.
 - Implemented an AI-powered assistant to answer faith-related questions and provide contextual Islamic guidance, leveraging modern NLP APIs for seamless integration.
 - Optimized application performance and real-time functionality to deliver responsive user experiences across mobile devices.
- **ClearEarthVR - Team Software Project (GitHub)** | *Unity, C#, VR Development*
 - Developed and integrated interactive C# scripts to support core VR gameplay mechanics with real-time interactions.
 - Implemented and configured immersive audio systems to enhance environmental realism and user engagement in the VR experience.
 - Assisted in debugging and optimizing gameplay scripts to improve application stability and performance across VR environments.
 - Collaborated with team members using Git and version control workflows to manage project updates and feature integration.

LEADERSHIP

Muslim Student Association | Executive Board Member

- Coordinated student events and community initiatives including weekly Friday Prayer organization and engagement activities.
- Hosted events such as Ramadan Iftars, managing budget and funding for MSA activities which increased participation by 25%.

EDUCATION

UNIVERSITY OF ILLINOIS AT CHICAGO

Chicago, Illinois

Bachelor of Science in Computer Science

May 2026

MORaine VALLEY COMMUNITY COLLEGE

Palos Hills, Illinois

Associate of Science in Applied Science

May 2024
